## EDUCATION

### PhD Built Environment + Health, Clemson University

Dissertation focused on the development of a Post-Occupancy Evaluation Methodology to systematically measure Performance Outcomes, which was organized by a Framework and led to the development of a Design Checklist aiming to inform Evidence-Based Clinic Design Solutions

### MS Architecture + Health, Clemson University

Thesis focused on developing a Lifecycle Framework for creating World-Class Facilities for the Military Health System

### Bachelor of Architecture, Cornell University

## PROFESSIONAL EXPERIENCE

### Bostwick Design Partnership

Director, Miami Office & Healthcare Planner 2017-Present

Deborah is Director of Bostwick Design Partnership's Miami Office and Healthcare Planner. She fosters the integration of research with design to enhance user experience, improve operational efficiencies, and determine best practice healthcare planning strategies. By blending the pursuit of measurable outcomes with operational planning analyses and encouraging bold creativity, Deborah cultivates an inspired team rooted in research yet burgeoning with innovation.

### Leo A Daly

Senior Project Manager - Healthcare Market Leader 2016-2017

As the Miami Office Healthcare Market Leader, Deborah fostered connections with lead Healthcare Systems, Contractors, and Developers, listened to the needs and goals of clients leading to consensus-driven solutions, and applied evidence-based design research to create patient-focused healthcare environments that meet strategic goals, maximize budgets, streamline operations, and adapt to tomorrow's needs.

### Ahead Architecture + Health Design Consultants

Founder, Principal 2014-2016

This firm is dedicated to conducting Pre-Design Research, Space Programming, Space Planning, Post-Occupancy Evaluations, and the development of Evidence-Based Design Guidelines and Concepts for state-of-the-art workplace environments and healthcare facilities with a particular focus in Outpatient Care and Clinic environments.

Clemson University School of Architecture  
Research Assistant, Architecture + Health 2010-2014

SPACES Architects PSC  
Founder, President 1995-2010

This firm is dedicated to Strategic Planning, Space Programming & Planning, Architectural Design, A&E Contract Documents & Specifications, Furniture Specifications, Project Management, Construction Supervision, and Design-Build for Corporate/Office & Commercial projects.

## **SPEAKING ENGAGEMENTS**

Healthcare Design Conference 2016  
An Evidence-Based Design Checklist to Inform Clinic Design

Healthcare Design Conference 2016  
Making the Case for Case Studies - A New Data Base Reference for Practitioners and Researchers

Healthcare Design Conference 2016  
Ambulatory Care Facility Design for Underserved Populations - Results of a NCARB Sponsored Evidence-Based Learning Initiative

AIA AAH Chautauqua Conference 2015  
Comparative Ambulatory Care Clinics Post-Occupancy Evaluation Analysis

CAAPPR Convention 2015  
Evidence-Based Design Research: How to Collect Evidence and Generate New Architectural Knowledge

IIE Annual Conference 2015  
Post-Occupancy Evaluation of a Family Health Clinic

NCARB Grant 2015  
Defining Best Practices in Ambulatory Care Facility Design for Medically Underserved Populations

Healthcare Design Conference 2014  
Pathways Toward Assessing the Quality of Ambulatory Care Clinics
