#### **Scaling a Parenting EBI for Latinx Youth Mental Health in Primary Care**

Principal Investigators: Guillermo Prado (contact PI), C Hendricks Brown

Funding Source: National Institute of Mental Health/NIH

Project Period: 8/16/2021 – 8/15/25

Total Award: ~\$3,050,000

#### **Description:**

The goal of the proposed application is to evaluate in an effectiveness-implementation type I hybrid trial, an enhanced version of eHealth Familias Unidas for reducing depressive and anxious symptoms as well as suicide behavior in Hispanic youth. Using a randomized rollout design of 18 clinics, the study's aims are: AIM 1: Evaluate the effectiveness of eHealth Familias Unidas for Mental Health in preventing/reducing depressive, anxiety symptoms, suicide ideation and behavior, and drug misuse among those screened as having poor family communication or elevated levels of depressive or anxiety symptoms, or a history of suicide behavior (ideation or attempts); AIM 2: Determine whether intervention effects are partially mediated by family communication and externalizing behaviors, including drug misuse, and moderated by parental depression; and Exploratory AIM 3: Intervention impact on mental health and drug misuse as well as sustainment will vary by quality of implementation at the levels of clinic and clinician. Participants will be assessed at baseline, 3, 6, and 18-months post baseline.

#### **Society for Prevention Research Annual Meetings, 2022-2027**

Principal Investigator: Guillermo Prado, PI (2020 - 2022)

Funding Source: NIH  
Project Period: 5/1/2022 – 04/30/27  
Total Award: ~\$860,000  
Description:

Since its inception in 1991, the Society for Prevention Research (SPR) has galvanized the growth and relevance of the field of prevention science. Consistent with SPR’s strategic goals, the aims of this proposed R13 application are to: Aim 1. Use the Annual Meeting to further develop a centrally integrated scientific forum for the exchange of new concepts, methods, and results from prevention research and related fields; Aim 2. Support the development of the next generation of prevention scientists through training, career building, and leadership development; and Aim 3. Ensure that the scientific developments emanating from the Annual Meeting have maximum reach and impact on public health.

### **Society for Prevention Research Annual Meetings, 2017-2021**

Principal Investigator: Guillermo Prado, PI (2020 - 2022)  
Funding Source: NIH  
Project Period: 5/25/2017 – 04/30/22  
Total Award: ~\$860,000  
Description:

This grant supported the Annual Meeting of the Society for Prevention Research (SPR), and activities closely related to the Annual Meeting, for five years (2017—2021). The Specific Aims of the current application build on the progress in the field of prevention science, prior annual meetings, work of SPR committees and workgroups and on the SPR's five-year strategic planning process. These specific aims are: (1) To continuously develop an integrated scientific forum for the exchange of new concepts, methods, and results from prevention research at the Annual Meeting; (2) To generate, promote, and support innovation in prevention science through Mapping Advances in Prevention Science (MAPS) Task Forces; (3) To use the Annual Meeting to support the development and diversity of the next generation of prevention scientists through training, career building, and leadership development; and (4) To ensure that the scientific developments emanating from the Annual Meetings, the journal Prevention Science, and the MAPS Task Forces have maximum impact on public health.
