

PUBLICATIONS

2004 Becker, K., Davis, E.E., Spiess, F.N., and de Moustier, C.P., Temperature and video logs from the upper oceanic crust, Holes 504B and 896A, Costa Rica Rift: implications for the permeability of upper oceanic crust, *Earth Planet. Sci. Lett.*, 222: 881-896.

2004 Davis, E.E., Becker, K., and He, J., Costa Rica Rift revisited: constraints on shallow and deep hydrothermal circulation in young oceanic crust, *Earth Planet. Sci. Lett.*, 222:863-879.

2004 Becker, K., and Davis, E.E., In situ determinations of the permeability of the igneous oceanic crust, *Hydrogeology of the Oceanic Lithosphere*, Cambridge University Press, 189-224.

2004 Davis, E., Becker, K., Dziak, R., Cassidy, J., Wang, K., and Lilley, M., Hydrological response to a seafloor spreading episode on the Juan de Fuca Ridge, *Nature*, 430: 335-338.

2003 Becker, K., Marine geological and geophysical roots of the Ocean Observatories Initiative, *Oceanography*, 16(4): 6- 11.

2003 Becker, K., and Davis, E.E., New evidence for age variation and scale effects of permeabilities of young oceanic crust from borehole thermal and pressure measurements, *Earth Planet. Sci. Lett.*, 210: 499- 508.

2002 Davis, E.E., and Becker, K., Observations of natural-state fluid pressures and temperatures in young oceanic crust and inferences regarding hydrothermal circulation, *Earth Planet. Sci. Lett.*, 204: 231-248.
